If the Customer objects to such price increase, then Afrox shall cease supplying the relevant Factored Products for the remainder of such period of interruption, but this shall not be deemed to be a failure or inability to supply for the purposes of the remainder of this Agreement. In the event that Afrox is unable to find an alternative source of the Factored Products then Afrox's obligation to supply the relevant Factored Products shall be deemed to be suspended for the duration of the interruption. This Clause shall not prejudice any rights the Customer may have under Clause 18(c). For the avoidance of doubt this suspension shall not be deemed to be a failure by Afrox to supply but it shall be an inability to supply allowing the Customer to exercise its rights (where relevant) under Clause 2(b) above.
- b. If Afrox's performance of any of its obligations under this Agreement by its normal means is prevented or delayed due to any war, civil disturbance, riot, government action, state of emergency, act of God, interruption of utilities, strike or labour dispute, or any other cause beyond Afrox's reasonable control, that obligation shall be suspended during the period Afrox is affected by such cause.
- c. In the event of Afrox's supply of Gas and/or Goods (which are not Factored Products) from their Product Source being interrupted under Clause 8(b) and for the duration of the period Afrox is affected by such cause Afrox may obtain such Gas and/or Goods from another source, in which case Afrox reserves the right to vary the price for the duration of the affected period to recover its additional costs, such additional costs to be notified to the Customer in advance. If the Customer objects to such price increase, then Afrox's obligation to supply shall remain suspended under Clause 8(b) above.

The Customer shall take all reasonable steps to help Afrox to recover the Gas, Goods and Afrox Equipment. The Customer will be held liable for the removal cost in the following circumstances:
  - i) where there is additional equipment;
